# Website for Lakewood Residents

The Lakewood website has been update with significant attention on the Resident Directory i.e. email address, phone number, addition of new users information and the deletion of former residents information.

- To obtain a "HARD" copy the resident information perform the following:
- Access the Lakewood website by entering the following in your browser: www.lakewoodwindsorparke.com
- Click on "Residents Login" on the right hand side of the main menu.
- Click on "Resident Area Log In" on the drop down menu.
- In the window "Existing User Login" provide your email, password and click on "Login". NOTE: If login fails because of "Password" error, please try "resident" all lowercase for a password. Modification of incorrect email address was corrected by deleting "old" email and adding corrected version, thus requiring new password. To reset password click on "Click here to reset" and follow directions to reset password.

- Once you are logged in, the following "Residents" window will be displayed:

- On the right side of the window click on "Member Directory"

- "Last Name" is the default sort of the ALL of the Lakewood Members. A specific Person (first name or last name), Phone Number, Email Address or House Address can be search for by specifying "Search For" and the corresponding "Search By" from the drop down list. The resulting list can then be sort by any of the other categories indicated in "Order By"; i.e. First Name, Last Name, Day Phone, Email, or Address.

- To "Print a Hard Copy" of the results, clicking on "Print this Page" in the "Print Director" box on the right side of the "Member Directory" window.
